Capstone Review-I

Name: Santosh Hatte

Roll No.: 324

PRN: 0120190436

Final Year BTECH (ETX)

General Capstone:

Design Blog

- Blog writing is a type of writing that is published on the internet and is usually focused on a specific topic or theme. The main purpose of blog writing is to share information, opinions, or insights with a large audience.
- There are various types of blog writing like personal blog, news blog, business blog, political blog, lifestyle blog, educational blog, etc.

Why Choose Design Blog:

- Showcase your skills
- Display your understanding
- Reach a wider audience
- Establish your authority
- Reflect on your experience
- Build your personal brand-popularity
- Document your project

Problem Statement:

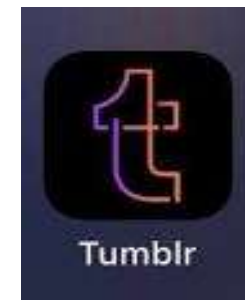

Design a technical blog for *Cryptocurrency price prediction system*.

- Discussion about the technologies used in this project
- Stepwise Implementation of this prediction system
- Project Link- [CRYPredict](#)

 Medium

 Blogger

Objectives:

- This blog will explore the various methods used to predict the future price of cryptocurrencies and analyze their effectiveness.
- We will also dive into the implementation of a cryptocurrency price prediction system using machine learning algorithms and how this system can be used to make informed investment decisions.
- Highlight the challenges faced while building a cryptocurrency price prediction system and how these can be overcome.
- The blog post will be an informative and educational resource for anyone interested in learning about cryptocurrency price prediction systems and the cryptocurrency market.
